BNBBOSS HISTORY

The world of ROI seems to fade away as soon as it starts. Is it bad marketing? Is it bad publicity?

Are there too many forks ? Or there no fresh new ideas being deployed these days?

Looking at this scenario, five crypto enthusiasts came together to brainstorm a simple but effective formula where all investors would be able to invest safely and securely.

The sustainability of the project and the hype will always be there when the payout is logical, and you have a community that supports your projects.

BNBBOSS is the outcome of brainstorming and discussions with its close-knit community. BNBBOSS will be a trailblazer and set the standard for how ROI dApps should be built and offered to investors and the community.

BNBBOSS INVESTMENT OVERVIEW

A successful project does not need multiple plans. This only confuses investors and most of the time, those who invest in the longer tenure stands to loose out.

Understanding this situation, we at BNBBOSS made it simple for our investors.

- Single plan
- 200% maximum ROI

BNBBOSS CALCULATION EXAMPLE

Let us understand how you'll be able to maximize your profits:-

Example

- On launch day, you invested 100 BNB.
- The base profit is 1%.
- From day 2 onwards, you're entitled to a hold bonus of 0.1% (if no withdrawals are made).
- If you don't withdraw for 10 days, your hold bonus will reach 1%.
- In total, after 10 days, you'll have a 2% ROI.
- You now have 2 BNB.
- Continue holding to earn the maximum hold bonus and achieve your 200% ROI.

The additional 0.1% hold bonus is unlimited, which means that as long as you do not withdraw, the 0.1% hold bonus will continue accumulating on a daily basis.

When you make a withdrawal, the hold bonus will reset to zero and will start accumulating again from the beginning.
